“This warm and inviting yellow reflects natural light really well, so it makes the room feel extra sunny. I painted an arch shape rather than the whole wall to add a little excitement.”

yarmouth blue

BY BENJAMIN MOORE

"I consider this blue one of my go-tos. It's calming yet happy, and cozy but not at all gloomy. Though I love it on the walls in this guest room, it would also look

great on cabinets in a laundry room."

—Lindsay Pincus, Lindsay Pincus Design, Seattle, WA

jitterbug jade

BY SHERWIN-WILLIAMS

"I decided to paint this butler's pantry a happy green because it's the first thing you see when you walk in the front door. The rest of the house is mostly white, and this space has become a real showpiece."

—Ashley DeLapp, Ashley DeLapp Interior Design, Charlotte, NC

sommelier

BY SHERWIN-WILLIAMS

"Our daughter's nursery has a high ceiling, so I knew it could handle a bold color. Maroon warmed up the space, and I promise, it feels way less dark than you'd think! Blush paneling and decals keep the room playful."

—Candace Griffin, @candacemaryinteriors, Chicago, IL
